SKILLS

- Data cleaning and modeling
- ELT-pipeline
- Database design, Data Warehousing
- Dashboard and Data Visualization
- Statistics & Analytics
- Database Querying
- Cloud Storage
- Data Validation
- Data Orchestration

WORK EXPERIENCE

iSi Automotive
(internship)

JAN-MAR 2023

- Learned airbag production process and system components
- Assisted in maintenance documentation and joined team problem-solving meetings

Windchill Limited
Disign Engineer

FEB-SEP 2024

- Designed an HVAC system for cleanroom environments
- Calculated airflow, cooling load, equipment specs, efficiency, and cost alignment

BBP Thailand

Service and Sustainability Engineer

OCT 2025 - PRESENT

- Work in HVAC and energy-related projects.
- Conduct site visits for installation and maintenance activities.
- Identify, resolve, and report technical issues to supervisors.
- Analyze data collected from data loggers to maintain target performance and identify any problems that could affect plant efficiency.
